

Blueberry Home Learning

Due in 22nd January

As a class we have been studying the different oceans on planet Earth. Each ocean has different characteristics and hold different points of interest. For example the Pacific Ocean is surrounded by a line of volcanoes known as the **Ring of Fire** and it is also home to the **Great Barrier Reef**, the largest coral reef in the world.

For your home learning this week please can you pick your favourite ocean, or ocean area (such as the **Bermuda Triangle**) and create a fact file all about it to present to the class.

Any questions please ask 😊
